

There is a scholarship opportunity available through the VT College of Vet Med for VT PhD students interested in TEM and SEM. The scholarship will be awarded to two PhD students: one in TEM and one in SEM. \*Please route this opportunity to users that may be interested.

The donor designation for this scholarship is:

*This scholarship will be split between one student interested in transmission electron microscopy and one student interested in scanning electron microscopy. Preference will be given to Ph.D. or DVM students within Vet Med. In the event there are no eligible candidates within Vet Med, it can be awarded to Ph.D students who have these interests but are within other college units at Virginia Tech.*

Submit Applications to Erin Poff [emcclusk@vt.edu](mailto:emcclusk@vt.edu).

**The application should include a letter, no more than one page, outlining the research area of the individual and any other relevant information. The letter should be signed by the applicant, and the faculty advisor. In addition, submit a resume that clearly indicates the applicant's GPA. These documents should be combined and submitted as one single pdf file.**

The scholarship funds will be applied to the student account (Hokie Spa) for the 2025-2026 academic year. The award is \$4,750 per recipient. Scholarships are split between the fall and spring semesters (50/50). \*If an applicant is planning to graduate at the end of the fall 2025 semester, please make note of this on the application so the scholarship can be appropriately awarded if the applicant is a successful recipient.

All the best,

Erin
